

Product Overview

PM3028FSNR V1 PoE Switch is 24-port 10/100Mbps PoE + 2G Combo Ethernet Switch. Among them port1-8 PoE ports support long-distance transmission of 800 meters(optional)(with long-range Equipment), The PoE ports can automatically detect and supply power to IEEE802.3af/at compliant Powered Devices (PD). The electrical power and data transmission on the same cable can expand your network to the places where no power lines or outlets, where you can install devices such as APs, IP cameras, or IP phones etc.

The PoE Switch provides a simple, cost- effective, and non-blocking wire-speed performance with 19-inch metal shape for rack deployment in office or department network application.
