## Product Overview

PM3010GSMI V3 is UNIPOE at independent research and development of Managed Ring Industrial-grade PoE Switches, with 8*10/100/1000 Mbps adaptive RJ45 port and 2*1000Mbps SFP optical fiber module extension slot. All 8 RJ45 ports support PoE power supply, with a maximum of 30W for each port. Support static routing functions, provide perfect security, QoS, and plenty of VLAN function has ring network function, can form a ring network, Switch between by hand in hand form a ring network topology, the redundancy, high reliability characteristics can make in a ring online link disconnected all the way, will not affect the forwarding of data on the network.

The device adopts no fan, low power consumption design, has the advantages of easy to use, compact and beautiful, simple installation. The product is designed to meet Ethernet standards, with lightning protection, static protection mechanism, operating temperature range of -40°C to 75°C, stable performance, safety and reliability, can be widely used in intelligent transportation, telecommunications, security, financial securities, customs and other broadband data transmission fields.
