

**KÄSCH**<sup>®</sup>  
WHIRLPOOL MADE IN GERMANY

# 2019 CATALOG

[www.kaesch.biz](http://www.kaesch.biz)

Since its establishment in 1919, Bauhaus has been the most influential temple in the field of design and a symbol of avant-garde art. No matter it is modern minimalist aesthetics or core idea of the unification of art and technology, countless designers of later generations, have interpreted extraordinary vitality for modern life, under the influence of the design concept established by Bauhaus.

Following the classic aesthetics of Bauhaus, KASCH combines exquisite craftsmanship with minimalist aesthetics, endows the products with the perfect luxury quality of vision, touch and sense, and brings the ultimate enjoyment of bathroom experience to users all over the world.

# KÄSCH

## Red dot · iF · Designpreis

Red dot represents the best in design and business. Red dot is an internationally recognized quality label, excellent design, aimed at meeting the requirements of all corporate activities.

The iF Design award, founded in 1953, is held annually by iF Industries Forum Design, the oldest industrial Design organization in Germany. Germany iF international design BBS awards iF design every year, it is known for its "Independent, Rigorous and Reliable" award concept, aimed at promoting the public awareness of design.

The design award of the federal republic of Germany is the country's highest honor in the field of design. It is called "reward of rewards". Reasons: no other design award has such strict approval criteria. Another prerequisite for entry is that companies must be nominated by federal government departments and senators, or by the department of economic and technological affairs.

KÄSCH OVERFLOW tank series, hidden OVERFLOW, restores natural environment senses, was awarded the red dot award, iF design award, and the highest German design award DESIGNPREIS.

# BRAND STORY

KÄSCH GmbH is located in the capital of Bavaria, which is also the largest city in southern Germany - Munich, where a lot of world-renowned brands are gathered.

As an internationally renowned manufacturer of professional bathtubs and bathroom accessories, KÄSCH only uses precious high-quality materials, integrates functions and latest technology to ensure the products to meet the high standard.

KÄSCH's business in more than 40 countries around the world, provides customized services for star hotels and high-end customers in worldwide.

The philosophy of KÄSCH is to create bathtubs and whirlpools for a maximum of relaxation and wellbeing. All our bathtubs are produced under anatomic and ergonomic scrutiny. Internationally recognized design awards support this philosophy, including RED DOT, IF, GERMAN DESIGNPREIS AWARD.

# KÄSCH IN CHINA

In China, KÄSCH products consistently comply with German quality standards. The raw materials and parts are mainly made in Germany. Stringent quality requirements are KÄSCH's most basic adherence.

**INTUITION IS IRREPLACEABLE.**

## TRIBUTE TO BAUHAUS

Bauhaus is the cradle of modern design, the design style which advocates and practices versatility, rationalization and minimalism, mainly based on geometric modeling, is regarded as the classic style of modernist design and has deeply influenced the process of German industrial design, and even the whole world's modern design.

On the occasion of one hundred years, the classics reappear.

KÄSCH carries out Bauhaus aesthetics, tactfully combines exquisite workmanship with elegance and unique, takes the minimalist concept of life to the extreme.
