

HE012-E

Product Features

- Low-carbon steel raw materials, reliable quality
- Unilateral supervisor design
- Products can be heated by hot water or by heating rods, which can be used in various ways
- Chrome, white, matte black multi-color optional
- Adjustable support, suitable for a variety of wall installations of different specifications
- Brazing process, the welding seam is smooth, no drought scars, no water leakage

HE012-E

Seamless welding

Constant temperature

Uniform heating

Safety and waterproof

Disinfection sterilization

Safe not hot

Information

Brand Name	TONA
Product Name	Towel Radiator
Material	Low carbon steel
Color	Chrome/White/Matte Black
Size	1600*500mm
Rated Power	531W/772W/772W
N.KG	16.2kg

Colour

Matte Black

White

Chrome
